*From the Vice-Rector*

Dear Faithful,

Thank you for your generous response in regard to our many projects here at the Shrine and in our Holy Family House. A lot has been accomplished these past week thanks to the generosity of many!

All the work done in our Holy Family House contribute in a large measure to the growth of our apostolate here in Chicago. It is a great comfort to see many new faithful coming to our different weekly devotions and to our masses. With the beginning of the new scholastic year (September), with the resuming of our offices and Shrine activities, with the launching of our Infant King Co-Op, we can certainly expect a rapid and encouraging growth which will enable us to serve many more souls for the Glory of God.

The exciting news (see. E-newsletter) about the upcoming beginning of Phase II of our construction project gives us another opportunity to give thanks to Our Lord for his many blessings despite the troubled times we live in. May He be always blessed!

## PROVINCIAL SHRINE

*Phase 2 scheduled to begin*

Having received the city permits after waiting nearly 300 days during last year's shut-down, we are now eager to begin Phase II of building our Provincial Shrine of Christ the King as the Institute's Headquarters in the United States.

**Thanks to the generosity and enthusiasm of thousands of benefactors, who desire to visibly honor our Lord Jesus Christ as King in our nation today, we are able to begin the first part of Phase II construction!**

Part 1 of Phase II will provide a 6" thick, structural concrete slab to the church's narthex, nave, sanctuary, and basement as a foundation for the subsequent steps in Phase II. This scope of work includes the excavation and grading of the present interior, installation of utility services, the routing and installation of all electrical conduit in the floor (in preparation for subsequent running of electrical wires), the routing and installation of all interior plumbing systems, and the installation of the radiant heating system into the floor prior to pouring the massive concrete slab.
