**Shrine Benefactors**

**Maria Santos Sepulveda**, *requested by Ms. Maria Saucedo*

### **Novena to the Immaculate Conception**

November 30 — December 8

O Most Holy Virgin who wast pleasing to God and didst become His Mother. Immaculate in thy body, in thy soul, in thy faith and in thy love, we beseech thee to look graciously upon the wretched who implore thy powerful protection. The wicked serpent, against whom the primal curse was hurled, continues nonetheless to wage war and to lay snares for the unhappy children of Eve. Ah, do thou, our blessed Mother, our Queen and Advocate, who from the first instant of thy conception didst crush the head of our enemy, receive the prayers that we unite single-heartedly to thine and conjure thee to offer at the throne of God, that we may never fall into the snares that are laid for us, in such wise that we may all come to the haven of salvation; and in the midst of so many dangers may holy Church and the fellowship of Christians everywhere sing once more the hymn of deliverance, victory and peace. Amen.

## SERVER SCHEDULE

### **Sunday, December 5th**

AC1: Michal Neupauer  
AC2: Jozef Neupauer

- Mr. Anderson

### **Sunday, December 12th**

7:30am Low Mass  
- Mr. Razo  
9:00am Low  
- Mr. Raciunas  
10:30am High Mass  
- Mr. Lopez

## BUILDING OUR PROVINCIAL SHRINE OF CHRIST THE KING

### *Work Accomplished*

Since late August, the second phase of work has begun in earnest and continued non-stop. The floor was excavated and graded, and brought to the proper height in order to prepare for the installation of the over 3,500 feet of electrical conduit that was run.

Conduit was run into the future basement, which was excavated to provide room for the future restrooms and infrastructure rooms. Access was cut under the sanctuary floor for plumbing and heating ducts. The drains for the “sacraria” or “blessed sink” were put into the nave, providing a direct access back to the earth for the water used for the washing of the hands during Mass at each of the many future side altars in the church.

Once all these preparations were completed, stone was put down over the conduit and compacted, in order to bring the floor to the proper level before the installation of the PEX tubing which will provide radiant heat in the church. After that, the new concrete slab will be ready to be poured, hopefully in time for Christmas!
